EUROPEAN SCHOOL-LEAVING CERTIFICATE—HIGH SCHOOL EXAMINATION, 1933.

INSTRUCTIONS FOR THE GUIDANCE OF HEADS OF SCHOOLS IN REGARD TO THE SUBMISSION OF CERTIFICATES FOR COMPLETION.

Heads of schools are requested to read very carefully the instructions relating to the submission for completion of European School Leaving Certificates due in the office of the Secretary to the Commissioner for Government Examinations, Cathedral P.O., Madras, by the 3rd January 1934 and to see that every item is attended to carefully.

1. Although the 3rd January is the latest date fixed for the submission of certificates, it will be an advantage if the certificates are sent as early as possible in December as this will facilitate the preliminary arrangements for tabulation. Heads of schools are accordingly requested to be good enough to send the certificates at an early a date as practicable. The certificates should not be sent in parcels, all the certificates of a school should be sent together.

2. The certificates should be sent preferably by registered post, packed in stout boards or other suitable material; parcels in which paper is used for packing are frequently damaged in transit, and arrive in a mutilated state.

3. In cases where the certificate of a candidate for the High School Examination is not sent for completion by reason of the actual date having elapsed hereof from that examination, or having failed to fulfil the conditions regarding attendance, etc., a letter explaining the circumstances should be submitted, the certificate number and name of pupil being mentioned therein.

4. Errors of omission and commission with regard to the entries in the certificate should be carefully avoided, the omission of a necessary entry or the existence of an incomplete or incorrect one, necessitates correspondence and the progress of tabulation work is retarded which causes delay in the issue of completed certificates.

5. The entries on each page should be thoroughly and carefully scrutinized with a view to supplying omissions or rectifying mistakes. Alterations should invariably be attested with the Headmaster's initials.

6. In cases where pupils have been exempted by the Inspector of European Schools from the age rules, or from showing school record, or have been granted condonation of break or excused shortage of attendance the number and date of the order of the Inspector of European Schools should be quoted in the appropriate place in the certificate, e.g., on page 2 of the certificate against date of birth, in the case of age exemption, so that the completion of the certificate may not be objected to.

7. Particular care should be taken to see that the standard-average is entered in all certificates sent for completion and that the entry made is correct in all cases. Certificates in which the entry relating to the standard-average is omitted or incorrectly made will be returned.

8. The certificates of candidates who appear for the Middle School Examination, 1933, should also be sent to the Secretary to the Commissioner for Government Examinations, Cathedral P.O., Madras, by the 3rd January 1934.

9. It is requested that the report in the annexed form may be sent along with the certificates. A separate communication advising despatch of the certificates is not necessary.

STATISTICS—CROP REPORT, 1933-34—COTTON—SECOND REPORT.

The average of the areas under cotton in the Madras Presidency during the five years ending 1931-32 has represented 9 per cent of the total area under cotton in India.

2. The area under cotton up to the 23th September 1933 is estimated at 740,400 acres. When compared with the area of 822,200 acres estimated for the corresponding period of last year, it reveals a decrease of about 10 per cent. The decrease is general and may be attributed to the fall in prices for cotton.

3. The area in the South and the Central districts relates partly to the last year's crop and partly to the current year's sowings which have just begun in parts.

4. The area in the districts of Bellary and Anantapur has fallen from 350,000 acres to 354,000 acres as sowings were held up by continuous downpours of rains.

5. The condition of the sumpgrd or early sown crop in parts of the Deccan is satisfactory.

6. The wholesale price of cotton (lint per Imperial maund of 82⅔ lb., as reported from important markets towards the close of September 1933, was about Rs. 16-10-0 for Coconadas, Rs. 14 for red northerns, Rs. 14-13-0 for white northerns, Rs. 13-8-0 for early

a cup) wastage, Rs. 23-9-0 for Cambodia, Rs. 22-2-0 for Coimbatore karungani, Rs. 20-11-0 for Tinnevelly karungani and Rs. 19-5-0 for Madura.

Failure to enter into the required K-2 form of agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Director's office copy of the Madras Detailed Standard Specifications and its addenda volume in token of work study before submitting his tender with rates which shall be for finished work in situ. He should also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, Kistna Special Division.

6. The tenderer's attention is directed to the requirements for materials as to be the clause "Materials and workmanship" in the "Preliminary Specifications." Materials conforming to the British Standard Specifications shall be used on the work and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself as to the quality and availability of materials. The names of the quarries, lakes, etc., wherefrom certain materials are to be obtained will be given in the descriptive specification sheet. The first class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the descriptive specification sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the descriptive specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract vary any extra charges for lead or for any other reason, in case the contractor is found later on to have overlooked the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary specifications" dealing with—

(1) Test inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant.
(4) Water and lighting.
(5) Clearing up during progress and for delivery.
(6) Accidents.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of the schedule, and that the schedule is liable to alteral ons by omissions, deductions, or additions at the discretion of the Executive Engineer, Kistna Special Division. He should quote specific rates for each item in the schedule, and the rate should be in rupees, annas and in pies of three pies. The rates should be written both in words and figures and the units in words. The schedule accompanying the tender shall be written legibly and free from erasures, overwritings or conversion of figures. Corrections, where unavoidable should be made by crossing out, initialling, dating and re-writing.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or on due time will be rejected. Batch or lump sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognised; and, if any such alterations are made the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

13. If further necessary information is required, the Executive Engineer of the Division will furnish such, but it must be clearly understood that tenders must be received as asked, and according to instructions.

14. The Executive Engineer, or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

15. No extra payment will be made for any boiling of water that may be required during the execution of the work. The same shall be included in the rates for the respective items.

(4) Where the said term of five years is about to expire in respect of any member, his successor may be nominated or elected at any time within three months before the said term expires, but shall not assume office until the said term has expired.

Meetings of the Council.

8. (1) The Council shall hold its first meeting at such time and place as may be appointed by the Governor General in Council; and thereafter the Council shall meet at least once in each year at such time and place as may be appointed by the Council.

(2) Until otherwise provided by Regulations, ten members of the Council shall form a quorum, and all the acts of the Council shall be decided by a majority of the members present and voting.

Officers, Secretary and servants of the Council.

9. (1) The Council shall—

(2) The President and Vice-President of the Council shall be members ex officio of the Executive Committee, and shall be President and Vice-President, respectively, of that Committee.

(3) In addition to the powers and duties conferred and imposed upon it by this Act the Executive Committee shall exercise and discharge such powers and duties as the Council may confer or impose upon it by any Regulations which may be made in this behalf.

Recognition of medical qualifications granted by medical institutions in British India.

11. (1) The medical qualifications granted by medical institutions in British India which are included in the First Schedule shall be recognised medical qualifications for the purposes of this Act.

(2) Any medical institution in British India which grants a medical qualification not included in the First Schedule may apply to the Governor General in Council to have such qualification recognised and the Governor General in Council, after consulting the Council, may, by notification in the *Gazette of India*, amend the First Schedule so as to include such qualification therein.

(3) Such notification may also direct that an entry shall be made in the last column of the First Schedule against such medical qualification declaring that it shall be a recognised medical qualification only when granted after a specified date.

(4) The Council shall, as soon as may be and without application being made, make all necessary arrangements for the inspection of the medical courses and examinations of the Universities of Patna, Rangoon and Andhra, and shall submit their recommendations to the Governor General in Council regarding the inclusion in the First Schedule of the medical qualifications granted by those Universities.

Non-Indian qualifications in Second Schedule to be recognised.

12. The medical qualifications granted by medical institutions outside British India which are included in the Second Schedule shall be recognised medical qualifications for the purposes of this Act, and shall be sufficient qualifications for enrolment on any Provincial Medical Register.

Transitory arrangements for modification of the Second Schedule.

13. *(1)* At any time during the period of four years after the commencement of this Act, the Council may enter into negotiations with the authority in any State or country outside British India which is entrusted by the law of such State or country with the maintenance of a register of medical practitioners, for the settling of a scheme of reciprocity for the recognition of medical qualifications, and the course of such negotiations shall be reported to the Governor General in Council, along with the decisions of the Council to recognise or to refuse to recognise the medical qualifications proposed by such authority for recognition in British India.

(2) In so far as the decisions of the Council to recognise medical qualifications are accepted by the Governor General in Council, they shall be embodied in a resolution and published in the *Gazette of India*, and such resolution shall specify or indicate with sufficient accuracy all medical qualifications finally approved for recognition in British India:

Provided that where any such resolution specifies or indicates a medical qualification which is not included in the Second Schedule, the Governor General in Council may, by notification in the *Gazette of India*, amend the Second Schedule so as to include such qualification therein, and such amendment may further direct that such qualification shall be deemed to be a recognised medical qualification for the purposes of this Act only when granted after a specified date.

(3) Within one month before the expiry of the period of four years from the commencement of this Act, the Governor General in Council shall frame a schedule to include all medical qualifications which have been specified or indicated by him in resolutions made under sub-section *(2)* and shall publish the said schedule in the *Gazette of India*, and such schedule shall be substituted for the Second Schedule with effect from the expiry of the said period of four years, and shall then have force as if it had been enacted in this Act:

Provided that the Governor General in Council shall include in the said schedule all medical qualifications included in the Second Schedule which were granted before the expiry of the said period of four years.

Permanent arrangements for modification of the Second Schedule.

14. *(1)* At any time after the expiry of the period of four years after the commencement of this Act, the Council may complete or may enter into negotiations with the authority in any State or country outside British India which by the law of such State or country is entrusted with the maintenance of a register of medical practitioners, for the settling of a scheme of reciprocity for the recognition of medical qualifications, and in pursuance of any such scheme the Governor General in Council may, by notification in the *Gazette of India*, amend the Second Schedule so as to include therein any medical qualification which the Council has decided should be recognised.

(2) Such notification may also direct that an entry shall be made in the last column of the Second Schedule against such medical qualification declaring that it shall be a recognised medical qualification only when granted after a specified date.

(3) The Governor General in Council, after consultation with the Council, may, by notification in the *Gazette of India*, amend the Second Schedule by directing that an entry be made therein in respect of any medical qualification, declaring that it shall be a recognised medical qualification only when granted before a specified date.

(4) Where the Council has refused to recognise any medical qualification which has been proposed for recognition by any such authority, that authority may apply to the Governor General in Council, and the Governor General in Council, after considering such application and after consulting the Council, may, by notification in the *Gazette of India*, amend the Second Schedule so as to include such qualification therein, and the provisions of sub-sections *(2)* shall apply to such notification.

Power to require information as to courses of study and examinations.

15. Every medical institution in British India which grants a recognised medical qualification shall furnish such information as the Council may, from time to time, require as to the courses of study and examinations to be undergone in order to obtain such qualification, as to the ages at which such courses of study and examinations are required to be undergone and such qualification is conferred, and generally as to the requisites for obtaining such qualification.

Inspection of examinations.

16. *(1)* The Executive Committee shall appoint such number of medical inspectors as it may deem requisite to attend at any or all of the examinations held by medical institutions in British India for the purpose of granting recognised medical qualifications.

(2) Inspectors appointed under this section shall not interfere with the conduct of any examination, but they shall report to the Executive Committee on the sufficiency of every examination which they attend and on any other matters in regard to which the Executive Committee may require them to report.

(3) The Executive Committee shall forward a copy of any such report to the medical institution concerned, and shall also forward a copy, with the remarks if such institution thereon, to the Governor General in Council.

Withdrawal of recognition.

17. (1) When, upon report by the Executive Committee it appears to the Council that the courses of study and examinations to be gone through in any medical institutions in British India in order to obtain a recognized medical qualification or that the standards of proficiency required from candidates at any examination held for the purpose of grant of such qualification are not such as to secure to persons holding such qualification the knowledge and skill requisite for the efficient practice of medicine, the Council shall make a representation to that effect to the Governor General in Council.

(2) After considering such representation the Governor General in Council may send it to the Local Government of the province in which the medical institution is situated, and the Local Government shall forward it, along with such remarks as it may choose to make, to the medical institution, with an intimation of the period within which the medical institution may submit its explanation to the Local Government.

(3) On the receipt of the explanation or, where no explanation is submitted within the period fixed, then on the expiry of that period, the Local Government shall make its recommendations to the Governor General in Council.

(4) The Governor General in Council, after making such further inquiry, if any, as he may think fit, may, by notification in the *Gazette of India*, direct that an entry shall be made in the First Schedule against the said medical qualification declaring that it shall be a recognized medical qualification only when granted before a specified date.

Power to make Regulations.

18. (1) The Council may, with the previous sanction of the Governor General in Council, make Regulations generally to carry out the purposes of this Act, and, without prejudice to the generality of this power, such Regulations may provide for—

(g) the appointment, powers, duties and procedure of medical inspectors; and

(h) any matter for which under this Act provision may be made by Regulations.

(2) Until the first Council is constituted under this Act, any Regulations which may be made under sub-section (1) may be made by the Governor General in Council; and any Regulation so made may be altered or rescinded by the Council in exercise of its powers under sub-section (1).

Information to be furnished by Council, and publication thereof.

19. (1) The Council shall furnish such reports, copies of its minutes, abstracts of its accounts, and other information to the Governor General in Council as he may require.

(2) The Governor General in Council may publish, in such manner as he may think fit, any report, copy, abstract or other information furnished to him under this section or under section 16.

Commissions of Inquiry.

20. (1) Whenever it is made to appear to the Governor General in Council that the Council is not complying with any of the provisions of this Act, the Governor General in Council may refer the particulars of the complaint to a Commission of Inquiry consisting of three persons, two of whom shall be appointed by the Governor General in Council, one being a Judge of a High Court established by Letters Patent of the Crown, and one by the Council;

and such Commission shall proceed to inquire in a summary manner and to report to the Governor General in Council as to the truth of the matters charged in the complaint, and in case of any charge of default or of improper conduct being found by the Commission to have been established, the Commission shall recommend the remedies, if any, which are in its opinion necessary.

(2) The Governor General in Council may require the Council to adopt the remedies so recommended within such time as, having regard to the report of the Commission, he may think fit, and if the Council fails to comply with any such requirement, the Governor General in Council may amend the Regulations of the Council, or make such provision or order or take such other steps as may seem necessary to give effect to the recommendations of the Commission.

(3) A Commission of Inquiry shall have power to administer oaths, to enforce the attendance of witnesses and the production of documents, and shall have all such other necessary powers for the purpose of any inquiry conducted by it as are exercised by a Civil Court under the Code of Civil Procedure, 1908. V of 1908.

Under rule 18 of the Madras Legislative Council Rules, the following Bills, together with the Statements of Objects and Reasons, are published for general information :—

BILL No. 15 OF 1933.

A Bill further to amend the Madras Forest Act, 1882, for a certain purpose.

Madras Act V of 1882.

WHEREAS it is expedient further to amend the Madras Forest Act, 1882, for the purpose hereinafter appearing; AND WHEREAS the previous sanction of the Governor General has been obtained to the passing of this Act;

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Madras Forest (Amendment) Act, 1933.

Madras Act V of 1882.

Amendment of section 66, Madras Act V of 1882.

2. In section 66 of the Madras Forest Act, 1882, after the words "expenses incurred in the execution of this Act in respect of timber or forest-produce," the words "or under any contract relating to timber or forest-produce, including any sum recoverable thereunder for

the breach thereof or in consequence of its cancellation or under the terms of a notice relating to the sale of timber or forest-produce by auction or by invitation of tenders, issued by or under the authority of a District Forest Officer," shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to remove the doubts which have been raised as to whether the expression "All money . . . payable to the Government . . . on account of timber or forest-produce" occurring in section 66 of the Madras Forest Act, 1882, includes—

(a) moneys due from a defaulting contractor under the terms of a contract relating to timber or forest-produce entered into by him with the Government, and

(b) moneys due from a defaulting purchaser of timber or forest-produce at a sale by auction or by tender under the terms of such sale. Clause 2 of the Bill removes those doubts by making the necessary amendments to section 66.

7th October 1933. M. KRISHNAN NAIR.

BILL No. 16 OF 1933.

A Bill to provide for the preservation in efficient condition of tanks belonging to landholders which are used as part of the Periyar system of irrigation in the Presidency of Madras.

WHEREAS it is expedient to provide for the preservation in efficient condition of tanks belonging to landholders which are used by the Government as part of the Periyar system of irrigation in the Presidency of Madras:

AND WHEREAS the previous sanction of the Governor-General has been obtained to the passing of this Act:

It is hereby enacted as follows:—

Short title. 1. This Act may be called the Periyar Irrigation Tanks (Preservation) Act, 193 .

Extent. 2. It extends to the whole of the Madura district.

Definitions. 3. In this Act, unless there is something repugnant in the subject or context—

(a) 'Collector' means the Collector of the district;

(*b*) 'estate' and 'landholder' have the same meaning as in the Madras Estates Land Act, 1908; and

Madras Act of 1908.

(*c*) 'tank' means any tank situated wholly or partly in an estate and used by the Government as part of the Periyar system of irrigation.

Decision of Collector.

4. If any question arises as to whether any area is or forms part of a tank, it shall be decided by the Collector whose decision shall be final.

Preparation of plans and estimates for repair of tank and service of order on landholder.

5. Whenever it appears to the Collector that any tank is in a state of disrepair, he may cause to be prepared plans and estimates specifying the measures which in his opinion are necessary for its repair and restoration to efficiency. The Collector shall send copies of such plans and estimates to the landholder of the estate in which the tank is situated or if the tank is not wholly situated in one estate to each landholder concerned together with an order in writing requiring him to appear before the Collector on a date to be specified in the notice and show cause why the measures specified in the said plans and estimates should not be carried out.

The Collector shall cause a vernacular translation of such order to be affixed in some conspicuous place or places in the village or villages in which the tank is situated and in such other villages, if any, as he may think fit.

Enquiry by Collector.

6. If the landholder or any of the landholders concerned appears before the Collector and satisfies him after such enquiry as the Collector thinks fit—

(*a*) that he is not the landholder of any estate in which the tank is wholly or partly situated; or

(*b*) that the tank does not require repair; or

(*c*) that measures other than those proposed would be sufficient for the repair of the tank and its restoration to efficiency; or

(*d*) that by local custom or express agreement any of the measures proposed should be carried out wholly or in part by and at the cost of some other person or persons;

the Collector shall cancel or modify the order accordingly and in the latter case shall cause to

be made such modifications in the plans and estimates as he may find necessary.

Provided that, in cases falling under clause (*d*), the Collector shall—

(i) before modifying the order give a reasonable opportunity to the person or persons concerned to appear and show cause why the measures should not be carried out and the cost thereof recovered from him or them wholly or in part, and

(ii) specify in the order the extent to which the landholder's liability devolves on the person or persons concerned under the local custom or express agreement and the proportions, if any, in which each of such persons, if more than one, shall bear such liability.

Right of persons concerned to make representations to Collector.

7. Pending an inquiry under section 6, or at any time within thirty days of the date when the copy of the order is affixed under section 5, the holder of any land irrigated by the Periyar system or any other person concerned may appear before the Collector and make such representations as he may think fit with regard to the nature of the measures proposed.

Order of Local Government on report by Collector.

8. (1) If the Collector does not cancel the order under section 6, he shall report the matter for the orders of the Local Government who may cause to be carried out the measures specified in the order as originally issued by the Collector or as modified by him, as the case may be.

(2) The total cost of carrying out such measures (including the charges on account of establishment and tools and plant at such percentages on the actual cost of the work done as the Local Government may from time to time prescribe) shall be divided between the Local Government and the landholder or landholders and the other persons concerned, if any, in accordance with the following provisions:—

(a) There shall first be determined the total average area on which, during the three faslis immediately preceding the fash in which the order under section 5 was issued, the Local Government have levied water-cess for the use

of water issuing from the tank otherwise than through its surplus works, whether at the rate prescribed for the irrigation of dry land with Periyar water or at the rate prescribed for the irrigation of wet land in whole inam and zamindari villages with such water.

(*b*) Each landholder concerned shall bear such proportion of the said total cost, as one half of the average area of the lands in his estate, on which during the said three fashs the Local Government have levied water-cess for the use of water so issuing at the rate prescribed for the irrigation with Periyar water of wet lands in whole inam and zamindari villages, bears to the total average area as determined under clause (*a*):

Provided that in cases falling under clause (*d*) of section 6, the liability of the landholder concerned shall, to the extent specified in the Collector's order, be borne by the persons and in the proportions specified in such order.

(*c*) The Local Government shall bear the balance of the said total cost.

Illustrations.—1. A tank is wholly situated in the estate of a landholder. No local custom or express agreement excluding the liability of the landholder is proved. The average area on which water cess was levied during the three fashs immediately preceding that in which the order under section 6 is issued consists of 50 acres on which water-cess was levied at the rate prescribed for the irrigation of dry lands and 30 acres on which water-cess was levied at the rate prescribed for the irrigation of wet lands in whole inam and zamindari villages. The landholder should bear $\frac{\frac{1}{2} \text{ of } 30}{50 + 30}$, i.e., 3/16 of the total cost and the Government should bear the remainder, namely, 13/16.

2. The facts are the same as in Illustration 1, except that an express contract is proved by which the ryots holding the wet lands are bound to bear a share of the cost in proportion to their holding. Twenty acres of the wet lands are held by the ryots and the remaining ten by the landholder. The Government have to bear 13/16 of the total cost as in Illustration 1, the ryots 2/16 and the landholder 1/16.

3. A tank is situated partly in the estate of landholder *A* and partly in that of landholder *B*. No local custom or express agreement excluding the liability of other landholder is proved. The average area on which water-cess was levied during the three faslis immediately preceding, consists of 50 acres on which the cess was levied at the rate prescribed for dry lands, 20 acres in the estate of landholder *A*, on which the cess was levied at the rate prescribed for wet lands in whole inam and zamindari villages, and 10 acres in the estate of landholder *B* on which the cess was levied at the rate prescribed for such wet lands. Landholder *A* will bear $\frac{\text{A's } 20}{50+20+10}$ or 2/16 of the total cost, landholder *B* will bear $\frac{\text{B's } 10}{50+20+10}$ or 1/16 of the total cost and the Government will bear the remainder, i.e., 13/16.

4. A tank is situated in the estates of several landholders. During the three faslis immediately preceding, water-cess has been levied on the whole ayacut at the rate prescribed for the irrigation of wet lands in whole inam and zamindari villages. No local custom or express agreement excluding the liability of any landholder is proved. One-half of the total cost will be borne by the Government and the other half by the several landholders in proportion to the average area lying within their estates on which such water-cess has been levied.

Service of not on on landholder or other person to pay amount of cost due from him.

9. After such measures as may have been ordered by the Local Government under section 8 have been carried out, the Collector shall cause to be served upon every landholder or other person concerned, a memorandum showing the total cost of carrying out the same and the portion of such cost for which he is liable under section 8, together with an order directing him to pay the said portion either in a lump sum or in instalments within a specified time.

Recovery of amount due.

10. Any amount payable by a landholder or other person under an order under section 9 shall be recoverable as an arrear of land revenue.

Right of suit of landholder, etc., in certain cases.

11. (1) Any landholder aggrieved by an order under section 9 served on him may within six months from the date on which such order was served institute a suit in a Civil Court to have such order set aside or modified on any of the following grounds, namely:—

(*a*) that he is not the landholder of any estate in which the tank is wholly or partly situated; or

(*b*) that by local custom or express agreement any of the measures should have been carried out by, and at the cost of, some other person; or

(*c*) that the portion of the cost for which he has been made liable has been wrongly calculated

Provided that a landholder who has been served with an order, under section 5 shall not be entitled to institute a suit on the ground specified in clause (*c*) or clause (*b*), unless he has raised such ground in the proceedings before the Collector under section 6.

(2) Any person other than a landholder aggrieved by an order under section 5 served on him may within six months from the date on which such order was served institute a suit in a Civil Court to have such order set aside or modified on any of the following grounds, namely —

(*a*) that he is not bound to carry out any of the measures by local custom or express agreement; or

(*b*) that the portion of the cost for which he has been made liable has been wrongly calculated.

Provided that no such person shall be entitled to institute a suit on the ground specified in clause (*a*), unless he has raised such ground in the proceedings referred to in the proviso to section 6 having had a reasonable opportunity to do so.

Procedure in case of emergency.

12. Whenever it appears to the Collector that any tank is in such a state of disrepair as to be in imminent danger of breaching, he may by summary order cause to be carried out the measures of repair which in his opinion are necessary to prevent the tank from breaching and shall without delay inform every landholder and other person concerned of the action which he is taking. The provisions of this Act shall thereupon apply as though such repairs had been ordered to be executed by the Local Government under section 8.

Service of notice or other document.

13. Every notice or other document required by this Act to be served on or sent to any person, shall, if practicable, be served personally on such person; or, if he cannot be found, the notice or document may be left at his usual or last known place of abode with an adult member of his family or an adult servant or agent, or

may be sent by registered post, or may be affixed to some conspicuous part of the usual or last known place of abode and shall thereupon be deemed to have been duly served or sent.

Powers of entry and inspection.

14. The Collector or any officer appointed by him in that behalf may, for the purpose of this Act, at any time, enter upon any land and inspect or cause to be inspected any tank situated therein

STATEMENT OF OBJECTS AND REASONS.

Certain tanks situated in proprietary estates have been used for a long time past as part of the Periyar system of irrigation and thereby the system has been so developed that the discontinuance of the use of the tanks now would be prejudicial to the interests of many holders of lands irrigated by that system Some of the tanks are not kept in proper repair. No means exist at present by which owners of the tanks can be effectively compelled to keep them in good repair. The provisions of Chapter VII of the Estates Land Act, 1908, for the repair of irrigation works are an inadequate remedy as it can be applied only when a tank is already in such a condition that the ryots are unable to raise an irrigated crop. It is, therefore, proposed by the Bill to take power to enable the Government to direct the carrying out of the repairs necessary to the tanks used as a part of the Periyar system of irrigation. The Bill provides full opportunity to the landholder and other persons concerned to establish that the repairs proposed are not needed or that less costly measures will suffice. The Government recognize that the cost of the repairs should not be levied wholly from the proprietor and the Bill provides for the Government bearing their due share of the cost. The apportionment of the liability between the Government and the landholder is based on the principle that the Government alone are interested in the irrigation of the dry lands while the Government and the landholder are equally interested in the irrigation of wet lands. Where by local custom or express agreement, any portion of the repairs should be carried out by a person other than the landholder, provision has been made in the Bill for the recovery of the cost of such portion of the repairs from such person. The landholder or other person from whom any portion of the cost has been ordered to be recovered is also given a right in certain circumstances to institute a suit in a civil court. A clause has been added to the Bill on the lines of section 11 of the Railway Protection Act, 1886, providing for the carrying out of immediate repairs in cases where a tank is in imminent danger of breaching

17th October 1933. A. Y. G. CAMPBELL.

NOTES ON CLAUSES.

Clause 3 (c).—The scope of the Bill is restricted to proprietary tanks used as part of the Periyar system and does not extend either to tanks which, though in a state of disrepair, are not used as part of the Periyar system or to proprietary channels. The words "wholly or partly" are used in the definition, as there are some tanks which are partly in one estate and partly in another or partly in an estate and partly outside an estate.

Clause 5.—This clause provides for the preparation of plans and estimates for repairs to tanks which are in a state of disrepair and for the Collector sending the plans and estimates to the landholder concerned, with a notice requiring him to appear and show cause why the repairs should not be carried out. Publication of this requisition in the village or villages affected has also been provided for. The clause generally follows sections 4 and 5 of the Madras Railway Protection Act, 1886 (Madras Act IV of 1886).

Clause 6.—This clause provides an opportunity to the landholder to establish that he is not liable to carry out the repairs or that the repairs proposed are not needed or that less costly measures will suffice. It is largely based on section 6 of the Railway Protection Act. If by local custom or express agreement the repairs should be carried out by some person other than the landholder, that other person also is given an opportunity to show cause why the measures should not be carried out at his cost.

Clause 7.—This clause follows section 8 of the Railway Protection Act and affords opportunity to holders of lands under the Periyar system to make representations to the Collector in regard to the nature of the repairs proposed.

Clause 8.—Sub-clause (1) follows generally section 9 of the Railway Protection Act and provides that the orders of the Local Government are necessary for the carrying out of the repairs.

Sub-clause (2) provides for the apportionment of the cost of the repairs between the Local Government and the landholder and the other persons concerned on the principle that the Government alone are interested in the irrigation of the dry lands while the Government and the landholder are equally interested in the irrigation of wet lands. portion of the cost Discretion has been given to the Collector to permit payment of the cost in instalments.
